## **SAFETY RULES FOR NAUTICAL BASE USERS**

Dear customer,

next we inform you about mandatory rules for conviviality and safety of all beach users, without prejudice of compliance of all safety and navigation rules and regulations applicable to your sport.

- Under no circumstances is it allowed to navigate within the swimmers' area.
- The entrance and exit of the beach will always be within the limits of the channel marked with buoys for this purpose.
- Navigation through the buoyed channel will take place at reduced speed (max. 3 knots), paying attention to other channel users, particularly windsurf, kayak and child sailing boats.
- Arrival to the beach will be done at the minimum speed possible, paying maximum attention to the swimmers who are walking along the sea shore.
- It is not allowed to leave the boat with hoisted sails or windsurfing sails on the sand without user supervision.
- The 5-metre strip of sand closest to the shore will only be used when the boat enters or exit to the sea, leaving this area free as quickly as possible so that other boats can enter or leave.
- User is solely responsible for navigate in safe conditions according to the weather and sea conditions, their skills and the condition of their boat.
- All indications given by the people in charge or employees of the Sailing School will be complied, especially those referring to safety issues, entry and exit of the channel and placement of the boats on the beach.
- User is solely responsible for the proper maintenance of his boat, with special attention and care of all safety elements. In the case of catamarans correct attachment of the mast must to be particularly ensured and guaranteed both on the beach and at sea.
- The boat will be used exclusively for recreational purposes. It is expressly forbidden any professional or lucrative use.
- Repeated and/or intentional non-compliance of these rules may result in the loss of the right to use the service and the obligation to remove the boat from the beach.

Enjoy your stay.
